THE GREEN SHOES

MAGIC TRICK

Effect : You invite a friend to name any card in front of your computer. You click on OK and then, the card appears instantaneously.

Explanation : Here is a magic trick where you have to be at least two people in front of the computer.
   - 1 Partner (The person who reads this leaflet).
    - 1 Spectator (a friend you know you want to surprise).

The idea is very simple.
When your friend name his chosen card, you will invisibly informing the program to launch the right card.

Two steps :

1. The OK button faked.

The OK button is actually a 5-buttons keypad.
Mnemonic Tip: The button has a shadow on the left side that match to the black cards !
The fifth button in the center (area where is writing OK) launches the Joker card.

2. How to inform the program of the value of the card ? => The Clock!

The feathers that appear in the form of a clock match to areas that will help you to inform the program on the value of the chosen card. Each feather represents one hour. Then, simply by moving the mouse over an hour which is the value of the card (without clicking), then the program will launch the right card.
Be Careful with the 'King', you simply leave the cursor in the center area and wait !
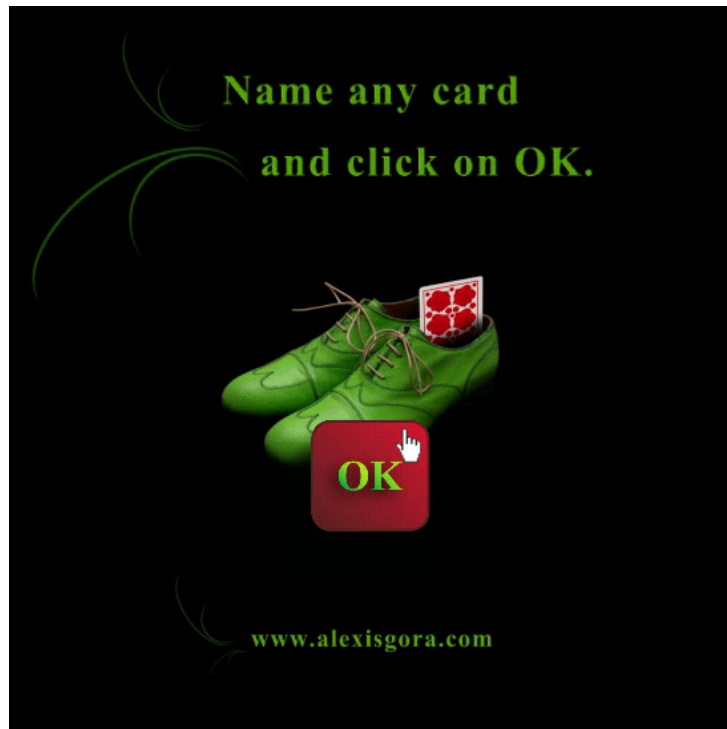

Matches :
1h = A = AS
**11h = J = Jack**
12h = Q = Queen
13h = K = King

3. Exemple

Your friend chose the Queen of Heart. So you click the OK button in the upper right side to indicate the Heart family.

Then, as soon as the feathers appear, you move the pointer over 12h to indicate a value of "Queen" but do not click as a result will begin automatically.

**The Queen is 12 !
So, point : 12h !**

Once the boiling starts you are totally free at the pointer and the Queen of Heart will appear after the explosion in the green shoes.

Look at the head of your friend when the chosen card jump from the shoe!

Then a "**Replay**" button will appear to do it again.

Have fun and live happy!
Alexis Gora the magician with green shoes.
